

**DGC**  
**DE GOEY CONTRACTORS**  
 Concrete Remediation Division

**De Goey Contractors concrete remediation division provides clients with the highest quality in concrete repair & protection.**

We pride ourselves on delivering excellence with our products and services whilst upholding A-class quality and safety assurances.

### Top Quality Service

DGC is committed to meeting all contractual, statutory and regulatory obligations and requirements for safety, service, quality and reliability in its concrete repair and protection, abrasive blasting, protective coating application, manufacture and installation of steel structure and piping systems. We operate a quality management system to AS/NZS ISO 9001.

### Training and Certification

DGC is operated by fully certified staff, trained by NACE and relevant training bodies including:

-  NACE CP Trained (Cathodic Protection)
-  NACE CIP Trained (Coatings)
-  HPWJ Trained Workers, trade qualified form-workers & concreters
-  ISO 9001:2015 - Quality Management Systems
-  ISO 45001:2018 - Occupational Health & Safety Management Systems
-  ISO 14001:2015 Environmental Management Systems
-  PCCP Certification Classes 1-4

Subcontractors engaged by DGC are also accredited to the same stringent standards.

### Capabilities

DGC is highly experienced in delivering top-quality concrete remediation and protection solutions. We can tailor our service to suit any project, big or small.

The partnership between De Goey Contractors inclusive of our protective coating and concrete remediation divisions, and Mackay Piping allows us to tailor our service to suit any project.

### Safety First

DGC has robust training and safety awareness and promotes a Zero Harm policy. Our HSE Safety team have extensive knowledge about the industry and operates an in-depth safety and health management system to ISO 45001:2018 to safeguard our people and operations.

**YOU'RE IN GOOD HANDS**

## TIMELINE

2011

DGC move into their first workshop in Paget. A fully equipped workspace to manufacture all components prior to onsite installation.

2015

DGC and Mackay Piping move into a larger 4000m<sup>2</sup> combined premises to enable wider service to Qld, and projects Australia-wide.

2020

DGC expands into their second premises and DGC Protective Coatings Division is established to offer blast and paint services on and off site.

2022

DGC achieves PCCP Certification and are proud to become a Painting Contractors Certification Program (PCCP) member.

2023

DGC expands into Concrete Remediation, specialising in delivering quality concrete remediation and protection services for our clients projects.

DGC started in 2006 after successfully securing ongoing contract work in the coal industry sector.

Mackay Piping is established, specialising in custom piping and enabling DGC to offer full service engineering, piping and fabrication project management.

A partnership is formed with Valmar Engineering to offer a highly qualified specialist service to the sugar production sector.

DGC achieves the following ISO certifications:  
**ISO 9001:2015**  
 • Quality Management Systems  
**ISO 14001:2015**  
 • Environmental Management Systems  
**ISO 45001:2018**  
 • Occupational Health & Safety Management Systems
