

DGC
DE GOEY CONTRACTORS

De Goey Contractors (DGC) provides clients with the highest quality piping, steel fabrication and installation services.

We pride ourselves on delivering excellence with our products and services while upholding A-class quality and safety assurances.

Top Quality Service

DGC is committed to meeting all contractual, statutory and regulatory obligations and requirements for safety, service, quality and reliability in its manufacture and installation of steel structure and piping systems. We operate a quality management system to AS/NZS ISO 9001.

Safety First

DGC has robust training and safety awareness and promotes a Zero Harm policy. Our HSE Safety Manager has extensive knowledge about the industry and operates an in-depth safety and health management system to ISO 45001:2018 to safeguard our people and operations.

Training and Certification

DGC is operated by fully certified staff, trained by Weld Australia (formerly the Welding Technology Institute of Australia or WTIA), including:

-  Certified International Welding Inspector
-  Certified International Welding Specialist
-  WTIA QC Welding Coordinator
-  Certified AS1796 Pressure Vessels Welding Supervisor Certified
-  AS2214 Structural Steel Welding Supervisor
-  ISO 9001:2015 - Quality Management Systems
-  ISO 45001:2018 - Occupational Health & Safety Management Systems
-  ISO 14001:2015 Environmental Management Systems
-  PCCP Certification Classes 1-4

Subcontractors engaged by DGC are also accredited to the same stringent standards.

Capabilities

DGC is highly experienced in delivering top-quality steel fabrication, piping production and installation. We can tailor our service to suit any project, big or small.

The partnership between De Goey Contractors, inclusive of our protective coating and concrete remediation divisions, and Mackay Piping allows us to provide a highly qualified and experienced service to our clients.

Our Paget facilities are fully equipped to manufacture all components/structures in all grades of carbon steel, aluminium and stainless steel, prior to on site installation.

YOU'RE IN GOOD HANDS

What We Offer

- ✓ Certified welding inspection
- ✓ Structural steel
- ✓ Poly pipe welding and installation
- ✓ Roll groove piping
- ✓ Threaded piping
- ✓ Stainless steel press-fit piping
- ✓ High pressure piping stainless and mild steel
- ✓ Stainless pipe welding GTAW MMAW methods
- ✓ Drainage and water main piping
- ✓ General aluminium welding
- ✓ General stainless pipe and structural welding
- ✓ Installation of belt wash and belt scrapper systems
- ✓ Spooling and installation poly/stainless slurry lines
- ✓ Installation of stainless steel and poly utility water and air piping
- ✓ Installation and piping of tank and sump systems
- ✓ Installation of fire suppression systems
- ✓ Spooling of welded stainless steel and carbon steel piping
- ✓ Installation of S/S Victaulic press fit piping and components
- ✓ Fabrication and welding of light structural steel
- ✓ Conveyor guarding fabrication and installation
- ✓ Denso SeaShield Marine Systems
- ✓ Quality assurance documentation
- ✓ Testing and commissioning
- ✓ Labour hire

Sustainability

DGC are committed to establishing and maintaining a comprehensive Sustainable Environmental Management System in compliance with industry best practice and regulatory requirements.

We achieve this through actively consulting and communicating with our workforce to provide and communicate on environmental matters, sustainable environmental practices, company successes and opportunities for continuous improvement.

Welding Procedures

De Goeij Contractors follows strict welding procedures to ensure quality results.

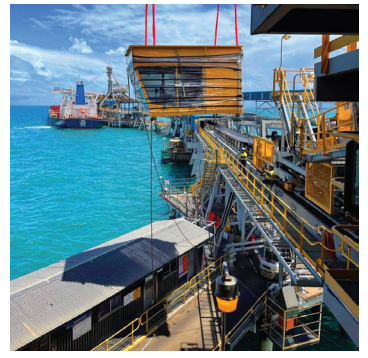

Welding procedures held and practiced include:

- ✓ AS/NZ3992: ASMEIX GTAW carbon/stainless steel small and large bore
- ✓ AS/NZ3992: ASMEIX GTAW/MMAW carbon/stainless steel large bore
- ✓ AS/NZ3992: ASMEIX GTAW/FCAW carbon/stainless steel large bore AS/
- ✓ NZ3992: ASMEIX GMAW/FCAW carbon/stainless steel large bore AS/
- ✓ NZ1554.1: FCAW carbon steel plate (various thicknesses)
- ✓ AS/NZ1554.1: GMAW carbon steel plate (various thicknesses)

TIMELINE

2011

DGC move into their first workshop in Paget. A fully equipped workspace to manufacture all components prior to onsite installation.

2015

DGC and Mackay Piping move into a larger 4000m² combined premises to enable wider service to Qld, and projects Australia-wide.

2020

DGC expands into their second premises and DGC Protective Coatings Division is established to offer blast and paint services on and off site.

2022

DGC achieves PCCP Certification and are proud to become a Painting Contractors Certification Program (PCCP) member.

2023

DGC expands into Concrete Remediation, specialising in delivering quality concrete remediation and protection services for our clients projects.

DGC started in 2006 after successfully securing ongoing contract work in the coal industry sector.

Mackay Piping is established, specialising in custom piping and enabling DGC to offer full service engineering, piping and fabrication project management.

A partnership is formed with Valmar Engineering to offer a highly qualified specialist service to the sugar production sector.

DGC achieves the following ISO certifications:
ISO 9001:2015
 • Quality Management Systems
ISO 14001:2015
 • Environmental Management Systems
ISO 45001:2018
 • Occupational Health & Safety Management Systems
