

DGC
DE GOEY CONTRACTORS
 CONCRETE REMEDIATION

De Goey Contractors concrete remediation services provide clients with the highest quality in concrete repair & protection.

We pride ourselves on delivering excellence with our products and services whilst upholding A-class quality and safety assurances.

Top Quality Service

DGC is committed to meeting all contractual, statutory and regulatory obligations and requirements for safety, service, quality and reliability in its concrete repair and protection, abrasive blasting, protective coating application, manufacture and installation of steel structure and piping systems. We operate a quality management system to AS/NZS ISO 9001.

Training and Certification

DGC is operated by fully certified staff, trained by NACE and relevant training bodies including:

- ✔ NACE CP Trained (Cathodic Protection)
- ✔ NACE CIP Trained (Coatings)
- ✔ HPWJ Trained Workers, trade qualified form-workers & concreters
- ✔ ISO 9001:2015 - Quality Management Systems
- ✔ ISO 45001:2018 - Occupational Health & Safety Management Systems
- ✔ ISO 14001:2015 Environmental Management Systems
- ✔ PCCP Certification Classes 1-4

 Subcontractors engaged by DGC are also accredited to the same stringent standards.

Safety First

DGC has robust training and safety awareness and promotes a Zero Harm policy. Our HSE Safety team have extensive knowledge about the industry and operates an in-depth safety and health management system to ISO 45001:2018 to safeguard our people and operations.

Capabilities

De Goey Contractors (DGC) offers comprehensive concrete remediation services designed to restore and protect concrete structures across various industries. Our expertise includes detailed assessments, scoping, and program documentation, followed by high-pressure concrete demolition, surface preparation, and industrial cleaning. We excel in reinforcement installation, augmentation, and cathodic protection, ensuring long-term durability. Our team specialises in surface treatments such as sealing, waterproofing, and crack injection, alongside advanced techniques like shotcrete, formwork, and pre-cast concrete placement. DGC is committed to delivering tailored, high-quality remediation solutions that meet the specific needs of each project, backed by rigorous quality control and testing protocols.

YOU'RE IN GOOD HANDS

What We Offer

- ✓ Concrete survey, scoping & remediation program documentation
