# CAPABILITY OVERVIEW

## BULK MATERIAL HANDLING

### TRAINING & CERTIFICATION

#### Highly Experienced Staff

Full trained and certified by Weld Australia

- ✓ Certified International Welding Inspector
- ✓ Certified International Welding Specialist
- ✓ WTIA QC Welding Coordinator
- ✓ Certified AS1796 Pressure Vessels Welding Supervisor Certified
- ✓ AS2214 Structural Steel Welding Supervisor

#### Certifications & Accreditations

- ✓ PAS99 Integrated Management System accredited to:
  - ISO9001:2015  
Quality management system
  - ISO 45001:2018  
OH&S management system:
  - ISO 14001:2015  
Environmental management system

Subcontractors engaged by DGC are also accredited to the same stringent standards.

DGC's strategic partnership with Red Engineers, brings together specialist expertise in bulk handling system design, engineering, certification with fabrication, coatings and installation.

This collaboration enables the delivery of all conveyor components, from initial design and manufacture through to servicing and maintenance.

DGC has robust safety training, and actively promotes a Zero Harm policy. The HSE team operates a comprehensive health and safety management system to ISO 45001:2018. To foster a culture where every team member takes ownership of safety, DGC recognises proactive thinking through monthly Safety awards at each site, along with a company wide award for the most impactful safety initiative or improvement.

**SAFETY FIRST. EVERY SECOND**

# SERVICES

De Goey Contractors (DGC) provides clients with the cutting-edge modern bulk material handling systems.

DGC is known for its excellence in providing top tier projects and installation services.

The team specialises in tailoring solutions to meet the unique requirements of every project. Bulk handling services encompass design, engineering, certification, fabrication, coatings, installation and commissioning, ensuring accountability at every stage.

1. Red Engineers Design: Gordon Stone Project

2. Red Engineers design: Radial Stacker for Curragh Mine

## BULK MATERIAL HANDLING

### WHAT WE OFFER

- ✓ Conveyor guarding fabrication and installation
- ✓ Conveyor layouts
- ✓ Conveyors power and tension reports
- ✓ Conveyor studies
- ✓ Design & development of bulk materials handling systems
- ✓ Engineering & RPEQ services
- ✓ Fabrication
- ✓ Labour hire
- ✓ Mechanical & electrical fit out
- ✓ Quality assurance documentation, testing and commissioning
- ✓ Site maintenance and commissioning
- ✓ Surface treatment

### EQUIPMENT WE MANUFACTURE & SERVICE

- ✓ Access platforms
- ✓ Belt clamps
- ✓ Belt maintenance
- ✓ Belt reelers
- ✓ Belt wash and belt scrapper systems
- ✓ Boot-ends
- ✓ Chutes
- ✓ Coffin seals
- ✓ Conveyor structures
- ✓ De-watering
- ✓ Development of conveyor drives
- ✓ Development units
- ✓ Drives
- ✓ Drive-head
- ✓ Dust suppression systems
- ✓ Gravity take ups
- ✓ Guarding
- ✓ Hoppers
- ✓ Loop take ups
- ✓ Mono rails
- ✓ Overland conveyors
- ✓ Pinch rollers
- ✓ Pulleys
- ✓ Sac-bases
- ✓ Tail-ends
- ✓ Transfers
- ✓ Trippers
- ✓ Underground conveyors
- ✓ Winches

## OUR PARTNERS

## SUSTAINABILITY

DGC is committed to maintaining a Sustainable Environmental Management System that meets industry best practice and regulatory requirements.

We achieve this through actively consulting and communicating with our workforce on environmental matters, sustainable practices, company progress, and opportunities for continuous improvement.
